Lisa Wormser, Dan Carlson, Cy Ulberg : At Road's End: Transportation And Land Use Choices For Communities before purchasing it in order to gage whether or not it would be worth my time, and all praised At Road's End: Transportation And Land Use Choices For Communities:

At Road's End is a timely guide to a new era of holistic transportation. It presents new models for transportation planning, describes effective strategies for resolving community disputes, and offers inspiration by clearly demonstrating that new ways of planning and implementing transportation systems can work.

From the Back CoverAt Road's End presents new models for transportation planning, describes effective strategies for resolving community disputes, and offers inspiration by clearly demonstrating that new ways of planning and implementing transportation systems can work. The book highlights case studies from around the country where plans to build more freeways are being scrapped or modified by new coalitions of environmentalists, developers, and community leaders; progressive transportation planners and officials are redefining transportation corridors to include more than roads; and communities are enhanced by bike paths, pedestrian ways, and reduced urban sprawl.About the AuthorDaniel Carlson is a research consultant at the Institute for Public Policy and Management at the University of Washington in Seattle. His areas of interest are community development, preservation, and empowerment. He is a graduate of Oberlin College and the University of California, Berkeley, where he received a master's degree in city and regional planning. He is also the author of Reusing America's Schools, a guide for converting closed schools into centers of community and economic activity. Lisa Wormser was a founding staff member of the Surface Transportation Policy Projects in 1991. As communications manager, she oversaw all aspects of STPP's public

information programs. She is a graduate of Southern Methodist University and is now the owner of Two Heads, a communications consulting firm. Cy Ulberg is a research associate professor in the Graduate School of Public Affairs at the University of Washington. He is also associated with the Washington State Transportation Center, a consortium of the University of Washington, the Washington State University, and the Washington State Department of Transportation. He holds a bachelor's degree in physics from Stanford University and a doctorate in social psychology from the University of Michigan. His interests are in community development, transportation policy, and land use.
