John H. Oakley, Francis Oakley, Olga Palagia : Athenian Potters and Painters Volume II: 2 before purchasing it in order to gage whether or not it would be worth my time, and all praised Athenian Potters and Painters Volume II: 2:

This volume presents the proceedings of the second Athenian Potters and Painters conference, which was held at the American School of Classical Studies, Athens 2007. Together with the 1994 conference (Volume I, Oxbow 1997), these are the first of their kind - focusing purely on Athenian pottery and addressing key aspects of its study. The thirty-two papers contained here are the result not only of a large amount of new material but also the dynamic appearance of a younger generation of scholars dealing with the subject. Subject areas range from the study of the potters and painters themselves, to shape, subject matter, chronology, export, excavation pottery, context, and the

influence of Athenian vases on pottery from other regions of the Mediterranean and vice versa. Three papers in Greek.
