Love the categorization, the content is a bit shallowBy TerryI was so excited to recieve this book because it seemed to be so well orgenized and very easy to navigate through the different characteristics.It certainly was, but I found most monologues in the book to be quite shallow and uninspiring with a lack of development in them.Another thing to consider is the fact that most monologues are from small plays which arn't very known. So most likely, the only way to watch\read them is to request it from the author himself and purchase it.. Small chance you'll find it in your library.I found a monologue that I liked, couldn't find any information A-T A-L-L about the play so I sent the author an e-mail requesting information but wasn't responded.So take all this into consideration.The monologues are deffinetly not overused.0 of 0 people found the following review helpful.
