**William Cooper, Wendy Cooper : Australian Rainforest Fruits: A Field Guide** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Australian Rainforest Fruits: A Field Guide:

This beautifully illustrated field guide covers 504 of the most common fruiting plants found in Australia's eastern rainforests, as well as a few species that are rare in the wild but generally well-known. These spectacular plants can be seen from Cape York to Victoria, with some species also found in the Northern Territory, Western Australia and overseas. Rainforest fruits are often beautifully coloured, and in this guide the species are arranged by colour of ripe fruit, then by size and form. Five broad categories – pink to purple, blue to black, yellow and orange to red, green

to brown, and white ndash; allow people with even limited botanical knowledge to identify rainforest fruits. Each species description is accompanied by a leaf drawing, a distribution map, and diagnostic characters to help the reader distinguish similar species. Australian Rainforest Fruits includes stunning artwork by Australiarsquo;s leading natural history artist, William T Cooper. It will be sought not just by bushwalkers and natural history enthusiasts, but also by those who admire botanical art at its best.

"Budding botanists (pun intended) will find this gorgeously illustrated handbook invaluable for tropical trips." (Wild)About the AuthorWendy Cooper is the author of two previous titles specializing in fruits of the Australian rainforest. She received a Cassowary Award from The Wet Tropics Management Authority in recognition of her second book *Fruits of the Australian Tropical Rainforest*. As a Research Associate at the Australian Tropical Herbarium she is involved in taxonomic studies of selected rainforest genera. William T. Cooper was Australiarsquo;s leading natural history artist. In 1990 he was awarded the Philadelphia Academy of Science (USA) Gold Medal, and in 1994 he was appointed an Officer of the Order of Australia for his contribution to art and to ornithology.
