Sue Kim is the best author ever!!!!By Rosy CuevasI just cant love more her books, the first one i bough was "bags, the modern classics" it worthd every single cent i invested because i made at least 12 bags!!! then, i bough "fabric by fabric one yard wonders" wich performs a couple of her projects i made the baby overalls (my husband love them) and i was addicted doing her mary janes pattern, it was such a coincidence that i found out her new book was just released, just in time for this last month of my pregnancy, and i am crazy doing baby stuff all day. her projects are cute, practical, easy to make and adapt to any style you like, great for either begginers or advanced sewing skills, everything is easily explained, with a lot of graphics and diagrams. I love making stuff for my baby, but is great how people like the results, a great book if you have a lot of baby showers, and you are tired of the classical onesies0 of 0 people found the following review helpful. Four StarsBy anonymousI love

all the sewing projects in that book. The instructions are clear and the projects are cute.0 of 0 people found the following review helpful. A delightful book filled with easy creative projects sure to please and impress the recipientBy K KannaA delightful book filled with easy creative projects sure to please and impress the recipient. She also includes lots of thoughtful tips for making your gift just that much more special. I can't wait to get started!

In this charming how-to book *Baby Boutique*, designer Sue Kim puts her signature style into 16 projects to welcome a new baby. You'll find patterns for hats, bibs, booties, blankets, toys, diaper bags and so much more. All the projects are presented with beautiful photography that highlights various infant-friendly fabric options. A comprehensive section on sewing basics makes the book exceptionally easy to use. There's even an innovative eco-friendly gift wrap chapter to help you showcase your lovely gift. After all, there's nothing more heartwarming than a handmade keepsake for a little one.

A collection of 16 delightful projects to handcraft for little ones is what you'll find in this book. They include shoes, hats, bibs, toys and bags, all with loads of cute combined with practicality. All but two are graded as suitable for beginners or confident beginners. Each project is shown made up in a number of different fabrics, and the instructions are first rate, with many of the steps along the way illustrated by helpful photographs. There's also an introductory chapter providing advice on fabric choices and some of the basic sewing techniques used to make the projects. Our favourite projects were the fleece-lined boots shown on the front cover and the baby sneakers, although, given Sue's experience in designing bags (she has previously authored an excellent bag book), we felt that the two nappy bags were also top notch. (*Australian Homespun Magazine*, May 2014)About the AuthorSue Kim is the author of several books of patterns and has become an independent pattern designer who is now writing for several publishers and pattern companies. She also runs the popular website [ithinksew.com](http://ithinksew.com). She lives in Manitoba with her family.
