Dale Mulfinger : Back to the Cabin: More Inspiration for the Classic American Getaway before purchasing it in order to gage whether or not it would be worth my time, and all praised Back to the Cabin: More Inspiration for the Classic American Getaway:

0 of 0 people found the following review helpful. Great cabin building ideas!By ga farm girlVery informative imaginative ideas. Purchase of the slightly used hardback book was a great value.0 of 0 people found the following review helpful. greatBy kg1great book - very inspiring0 of 0 people found the following review helpful. AWESome!By Buster and SunshineStellar book- we love it!

A yearning for smaller homes...simpler times! Architect and renowned ldquo;cabinologistrdquo; Dale Mulfinger rekindles our love of the iconic American cabin in Back to the Cabin. This latest book picks up where his best seller, The Cabin, left off, engaging readers with fresh insights and strategies for designing a contemporary cabin with all the charm of yesteryear. Renewing Americarsquo;s long love affair with cabins. From rustic bungalows to log cabins, the bare-bones getaway house provides families with a sense of freedom from the everyday and the camaraderie of living close in shared spaces. In stark contrast to todayrsquo;s hi-tech world, cabin living is uncomplicated and basic ndash; another reason spurring interest in these cozy shelters. A collection of 37 cabins ndash; all different, all appealing. These cabins recapture an old-world spirit of simple living, when the mudroom was entry enough for all and burning

wood was for more than just ambiance. Others are more surprising — the “cabin that blends old-time simplicity with modern must-haves, cabins that come packaged as kits, cabins built from recycled materials, and others that are just for fun.”

About the Author
Dale Mulfinger is a principle of SALA Architects Inc., of Minneapolis, Stillwater, and Excelsior, Minnesota. He is an adjunct architecture professor at the University of Minnesota, where he teaches a class on cabin design. Mulfinger has designed homes and cabins throughout North and South America and is the author of "The Cabin" (The Taunton Press, 2001).
