Thom Johnson, Barbara H. Gottlock : Bannerman Castle (Images of America) before purchasing it in order to gage whether or not it would be worth my time, and all praised Bannerman Castle (Images of America):

By Hueyman Many collectors cut their collecting teeth drooling over the catalogs published for many years by Francis Bannerman. But what of the man, his family, and the fabled island he maintained? This book covers all of those aspects of the legend, and more. Period and contemporary photographs will fascinate anyone that has wondered what was there and how it came and went. The book has a proud place on the shelf with my Bannerman catalogs that span nearly a century. Hueyman 6 of 6 people found the following review helpful. A labor of love. By randym I used to commute to New York City on Metro-North every day. Twice a day, I would pass Pollepel Island and the ruins of Bannerman's Castle. No matter how many times

I passed it, I always found it a fascinating sight. Now there are tours of Bannerman's Castle; I recently went on one, and though they provided a lot of information, and I took a ton of photos, I wanted more. This book has just about everything you might want to know about Bannerman's Castle. The photos and detailed information are great; this book was clearly a labor of love. The pictures date from while the castle was being built to the present day. It's really interesting to compare the photos of the castle in its prime with its current state. It would be nice if there were some color photos, but that's a minor complaint. Most of the photos date from the days of black and white anyway. Excellent book on a Hudson Valley landmark. 0 of 0 people found the following review helpful. Three StarsBy coleman conradNeat to learn the history.

For generations, boaters and train passengers have been mystified and intrigued by the sight of a castlelike structure looming in the Hudson River, near Fishkill. Bannerman Castle unveils the history of this site: an island arsenal, built to resemble a Scottish castle. The story begins in 1900, when Francis Bannerman VI purchased the island?officially Pollepel but later called Bannerman?s Island?for storing used military goods purchased from the government. A native of Scotland, Bannerman designed his arsenal to resemble a Scottish castle.
