**Vernon Hyde Minor : Baroque Visual Rhetoric (Toronto Italian Studies)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Baroque Visual Rhetoric (Toronto Italian Studies):

Intricate, expressive, given to grandeur and even excess, Baroque art as a style is inseparable from the meanings it seeks to convey. Vernon Hyde Minor's Baroque Visual Rhetoric probes this combination of style and message and — equally importantly — the methodological basis on which the critical art historian comes to establish that meaning. Drawing on a breathtaking range of critical literature, from the German founders of art history as an

academic discipline to Heidegger, Derrida, and de Man, Minor considers the issue through a series of Baroque masterpieces: Bernini's Baldacchino in St. Peter's Basilica, the statues in the church of San Giovanni in Laterano, Borromini's church of Sant'Ivo alla Sapienza, Baciccio's frescoes in the church of Il Gesu, the paintings of Philippe de Champaigne, and the Corsini Chapel in San Giovanni in Laterano.

Highly recommended. (D.H. Cibelli Choice Magazine vol 53:10:2016) "Vernon Hyde Minor's work on Baroque visual rhetoric is on the cutting edge of art theory and history. His book is a rare treasure, especially for those interested in the application of rhetorical analysis to the visual arts."
