Overall, the book has an easy-to-read layout of how to progress in conducting patterns, instrument transposition keys, foreign musical terms, and examples at the end to conduct to, as well as little quizzes at the end of each section. I disagree with the placement of some of the chapters within the book, as well as a few concepts I've read about, which is the only reason I gave it a 4 star.0 of 0 people found the following review helpful. good conductBy ahveeteeWhen dealing for the first time with hitherto unknown parties, one can be apprehensive.
