John Montague : Basic Perspective Drawing, Enhanced Edition: A Visual Approach before purchasing it in order to gage whether or not it would be worth my time, and all praised Basic Perspective Drawing, Enhanced Edition: A Visual Approach:

0 of 0 people found the following review helpful. Five StarsBy *berlinStep* by step lessons on many types of perspective sketching.0 of 0 people found the following review helpful. This book is a good book to have in a personal libraryBy *annie*This book is a good book to have in a personal library. It is especially good for artist. John Montague covers everything about perspective an artist could want. I think It is clear and complete in explanation. Certainly

would recommend it for anyone who wants to understand how perspective works. 1 of 1 people found the following review helpful. Can't access the videos
By Daria Siegel Kempka
I can't find an access code for the supplementary videos. Is there an extra charge to access these? If so, the product description should make this clear. The book itself is great. If it weren't for the video access issue, I'd give 5 stars. If someone helps me clear this up, I'll change my review.

The best-selling guidehellip;now completely updated to include online tutorials! Basic Perspective Drawing introduces students, both those in formal design courses and self-learners, to the basic principles and techniques of perspective drawing. Clear and accessible illustrations show how to construct perspective views one step at a time. The new, streamlined Sixth Edition contains must-have content for students and instructors in art and design, architecture, and interior design programs. Updated illustrations reflect the most current drawing styles and examples while supplementary tutorial videos, grouped by architectural disciplines, interior design, and studio art/illustration, provide live-action demonstrations of key topics discussed in the book.
