Hal Leonard Corp. : Bass Tab White Pages Songbook before purchasing it in order to gauge whether or not it would be worth my time, and all praised Bass Tab White Pages Songbook:

First time looking through it, there are a wide variety of genres, which is what I was after. At ~\$0.12/song, it's a good investment for people wanting to fill out their tab library. My only complaint is that whoever packed it left dirty black smudges (finger prints?) on the cover. It cleaned off easily so I'm still going with 5 stars, but in the future, clean hands please! ;o)0 of 0 people found the following review helpful. I love this book. I wish I'd have bought it in the paper version though.By Kevin M GonyoI love this book. I wish I'd have bought it in the paper version. I am definitely a kindle person, but for this kind of material ... at least for me, I should have gotten the actual (paper) book.1 of 1 people found the following review helpful. Great selectionBy J. AlvesLots of songs, lots of stuff from bands I wouldn't want to spend money buying a while book of theirs -- the "one hit wonders". A good purchase. Only thing that is somewhat of a problem is that, having so many songs, the book is thick, even using the

very thin phone book type paper, and therefore can not be put in my music stand. I also have the 3 volumes of the guitar collection, and they are also fun books.
