**Hal Leonard : Beauty and the Beast Songbook** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Beauty and the Beast Songbook:

By Benjamin J. Vreeland  
I just bought this over Kindle to play on the piano. Since I live internationally I thought this would be a good alternative to trying to ship internationally with extra shipping costs, time, etc. It came instantly on the Kindle and I was able to play it right away. It is a decent song book but one of the troubles with looking at a book such as this online is that you can't peruse the content to see what kind of musical compositions are in there. You can see only one page of actual sheet music and if I had been able to peruse the rest of the content I would have chosen a different song book. I wanted something with a more melodious composition to it and this fell a little short of my expectations. The book ordering and wireless delivery worked just fine. I set my iPad up on the piano and played right away. I only wish there was a way to peruse more of the sheet music for the different songs so I can know I'm getting a

composition that I want, like you could do in a real store. If only there were sheet music stores here where we live...0 of 0 people found the following review helpful. Four StarsBy CustomerDefinitely still fun to play and the digital translation of the book is easy to read, fortunately.0 of 3 people found the following review helpful. Four StarsBy ToriDecent
