**Victor Perard : Beginner's Guide to Perspective (Dover Art Instruction)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Beginner's Guide to Perspective (Dover Art Instruction):

0 of 0 people found the following review helpful. but it's really good for beginnersBy BellThe book is very short, but it's really good for beginners, people who never fully grasped perspective and if you haven't drawn perspective in a while.I would recommend buying it used because it's a good buy for the cheeper price.0 of 0 people found the following review helpful. Five StarsBy C EBest drawing books!1 of 2 people found the following review helpful. PerspectiveBy Linda J JacobWay too short good thing I got it as e book. Would not purchase anything written by this author again.lj

Perspective is one of the most difficult skills to master; even for seasoned artists. In this book, distinguished artist and art educator Victor Perard shows clearly how the use of such simple techniques as vanishing points and

perspective lines can add a dramatic depth and dimension to any drawing. Sixty-two accompanying illustrations have been chosen to demonstrate a variety of problems the artist may encounter when creating a picture. Perard urges students to study them carefully and then apply the principles they represent when making their own sketches. He also provides some striking, illustrated studies in foreshortening and two-point perspective.
