**M.A. BRADFORD : Behaviour and Design of Steel Structures to AS4100** before purchasing it in order to gage whether or not it would be worth my time, and all praised Behaviour and Design of Steel Structures to AS4100:

0 of 0 people found the following review helpful. Hand In HandBy Mattas a structural engineering student in Australia, this text book is a must have especially when using it with conjunction to AS4100. they work hand in hand!!

The behaviour of steel structures and the criteria used in their design are set out in detail in this book. The book bridges the gap between the methods of analysis and the sizing of structural components. The basis of the limit state

design criteria of the latest Australian code for structural steel are explained, and the reader is pointed to the relevant provisions of the code.
