For All AgesBy Karen QuickMy nine year old son and I have both begun taking piano lessons, he's been going for almost a year and I have had three lessons - we are both enjoying this book. Slow songs for me and fast-paced for him make us sound like we know what we are doing and who doesn't love Christmas songs?0 of 0 people found the following review helpful. E_Z Play books or a music teachers bibleBy Don WilsonThis is another one of those great books to learn from or even serve as a fake book for the pro. Why? Because you are not required to know how to play music knowing what key its in. All you have to know is where the notes on

your instrument is and that just makes it so much more fun and easy to learn. And your ear also begins to hear the tones a little faster I think.
