Spot on Just AWSOME!!By ChazzFirst, don't pay any attention to Peter Taylor's one star review.When buying this TAB book you should also by the DVD ISBN: 063402924X as well.This is a great place to start if you are a beginner and wanting to learn haw to play some Heavy metal riffs right of the bat.Also, if you have an iPod, iPhone, iPad you should buy "Play Guitar With Black Sabbath the backing tracks".It is soooo much better to use as your backing tracks than the backing tracks that come with the CD.And if you have JamUp Pro you can play your guitar and also have what ever song you

are learning play at the same time and even slow down the song so you can get your guitar playing right.

On this info-packed DVD that makes learning licks easy, acclaimed guitarist and educator Troy Stetina teaches Tony Iommi's trademark guitar riffs and solos on eight classics from one of hard rock's greatest bands. Features detailed analysis of: Black Sabbath * Children of the Grave * Iron Man * N.I.B. * Paranoid * Sabbath, Bloody Sabbath * Sweet Leaf * War Pigs (Interpolating Luke's Wall). Approximately 60 minutes.
